Los Angeles

**Educational Project: Access to Education and New Technologies for
Universidad Tecnológica del Centro de Veracruz (UTCV), México**

**Live from EuroCsys Los Angeles Center
September 28th From 11am to 2pm (Los Angeles time)**

Directed and Supported by European Competence Systems (*EuroCsys*).

UTCV will present the latest on-line educational courses in Educative Access, Digital Inclusion, New Technologies for Education and Blended Learning. The public is invited to participate on-line in the evaluation of these courses that will be offered soon in the U.S. These courses are intended to offer world-class education at a nominal cost which will be fully accredited in the U.S.
